

WIND SPEED TEST FIXTURE

FEATURES:

- **Accurate Speed Settings**
- **Low Cost**
- **Low Power**
- **Lightweight**

The P/N 102081 Wind Speed Test Fixture provides a convenient and accurate way to rotate clockwise or counter-clockwise at any rate between 200 and 15,000 RPM in 100 RPM increments. The LCD display is referenced to an accurate and stable quartz time base. For completely portable operation, the unit can be operated on internal batteries. For extended operation, an AC wall adapter is included.
