

MINIMUM/MAXIMUM THERMOMETER

FEATURES:

- **National Weather Service Standard**
- **Simple Construction**
- **Easy to Read**

The Models 210-4420 and 210-4421 Minimum-Maximum Thermometer Sets are standard U.S. National Weather Service thermometer sets for obtaining daily maximum and minimum temperatures. Each set includes two thermometers and a stainless steel Townsend Support, which holds the thermometers in the correct operating position and facilitates resetting. The maximum thermometer is mercury-filled and uses a bore constriction to maintain the reading at the highest temperature reached. The alcohol-filled minimum thermometer utilizes a glass index to maintain the minimum temperature. Each thermometer is mounted on stainless steel back. Both Fahrenheit and Celsius sets are available.

SPECIFICATIONS

Range:

Model 210-4420:	-50° to +120°F minimum -40° to + 130°F maximum
Model 210-4421:	-45° to +50°C minimum, -30° to +55°C maximum

Graduations:

0.5°C, 1°F

Accuracy:

±0.2°C above 0°C

Size (thermometer):

10.5" L x 1" W (267 x 25 mm)

Weight/shipping (set):

2 lbs/5 lbs (0.9 kg/2.3 kg)
